

eSIM - Installation steps (for iPhone)

Please refer to the following steps to install the eSIM profile into your device.

Important Notes Before You Install the eSIM Profile

- Data plan validity starts immediately when the eSIM is installed.
- To successfully install the eSIM, a stable Internet connection is required.
- The eSIM can only be installed once. DO NOT DELETE/REMOVE your eSIM from your device after the successful installation.

Installation Steps

- 1. Turn OFF another eSIM (if you are currently using).
- 2. Connect with WiFi
- 3. Issue eSIM QR code
- 4. Install the eSIM profile
- 5. (optional) Personal Hotspot setting

1. Turn OFF another eSIM (if you are currently using)

Please go to "Setting>Cellular" to check if you are currently using other eSIM.
